

Hasti

Ideas about the groups.

1. The game should look like fun and fair, it should be interesting.

The game should have a lot of people in a team and it should look similar to each other, and we need to develop a plan first and then we need to put each other in a order, I like a Palatys, I like the rules, I like the place and everything, it's very interesting, and we also help each other.
